### STOCKS.

The stock market to-day was not as active, and of course prices were very irregular. Near the close of the day, however, a strong tone set in and prices advanced sharply, the highest prices of the day being current just before the close. Reading was exceptionally weak, and declined 3 per cent for the day. In the final dealing there was a slight reaction in the general line from the highest point. Memphis & Charleston made the greatest advance from 4 1/2 per cent to 7 1/2.
